

## BRAZEN ADMISSION OF PLOT MAKES ARMED NEUTRALITY CERTAINTY

### PRIZES FOR BEST GARDENS AND CHICKENS

**P. B. Nettleton Offers Them to Stimulate Improvement on Lots He Sells by May First This Year**

**Competent Judges Will be Selected Soon who will Formulate the Rules to be Printed in Dispatch**

For the purpose of increasing the improvement and sale of vacant lots in Brainerd, I offer the following prizes, to apply to all lots I sell by May 1st, for the best gardens thereon: First prize, \$5 cash; second prize, \$4; third prize, \$3; fourth prize, \$2; fifth prize, \$1.

The same premiums will be paid for the best results in chicken raising.

Competent judges will be selected soon who will formulate rules, etc., which will be published in the Dispatch.

While the prizes are not large, it is hoped that they will stimulate a healthy and good natured rivalry and produce good results.

The honor and satisfaction of being a prize winner in such a contest, is of more value than the money.

Such work out of doors in the sunshine and fresh air, is not only healthful but full of interest and educational as well. Men, young men, women, boys and girls, should be interested in lot and home owning, improving and beautifying the same.

P. B. NETTLETON.

### "Bone Dry" Provision President Signs Bill

(By United Press) Washington, March 3—President Wilson has signed the postal appropriation bill carrying the "bone dry" prohibition provision.

### Webb will Ask Special Ruling

(By United Press) Washington, March 3—Chairman Webb, of the house judiciary committee will ask late this afternoon for a special ruling on the general espionage bill.

### PLANTS ON PACIFIC COAST

Germans Alleged to Have Two Wireless Stations.

San Diego, Cal., March 3.—Several wireless stations manned by German army officers are in operation along the Lower California coast and German officers in civilian clothes are making their headquarters at Tijuana, Mex., a few miles south of this city, was the announcement made by Don Stewart, city treasurer and senior officer of the naval militia.

Stewart based his assertions, he said, on the statements of two young men who disappeared after their interview with Stewart and for whom army and naval officers are searching.

### SHIPPING MEN SPECULATE

Believe British Found German Code on von Bernstorff.

New York, March 3.—In the absence of detailed information as to just how the government obtained the complete information of German-Mexican matter shipping men are speculating on the possibility it was obtained from the liner Frederik VIII., when she was searched at Halifax.

The baggage of Count von Bernstorff and other members of the German party was thoroughly examined at Halifax.

Knowing the thoroughness with which the British authorities conduct search of vessels steamship men expressed belief some code was found which made it possible to decipher the documents in possession of the United States.

**JAN C. SMUTS.**  
Great Britain Honors  
South African General.

London, March 3.—Lieutenant General Jan Christian Smuts, former commander of the British forces in German East Africa and a member of the South African cabinet, has been made a privy councillor.

### Does Not Intend Convey Vessels at Present Time

(By United Press) Washington, March 3.—The state department has officially announced that while the subject of convey of merchantmen had been discussed it was not the intention now to convey vessels. Conveying munition carriers would undoubtedly be interpreted as an act of war.

### No More Plot than U. S. Reported to Have Had in Mind

(By United Press) Berlin, March 3.—An official statement says that Secretary Zimmermann when asked by an official of the press bureau regarding revealing of the plot against the United States answered:

"You understand that it is impossible for me to talk and discuss facts regarding this matter definitely. It was no more of a plot than what South American newspapers reported when they said the United States had asked the South Americans to join them against Germany a year ago."

He commented on probable sympathies and very carefully added that "the entire discussion was based upon English reports."

### Signs Revenue Bill for \$450,000,000

(By United Press) Washington, March 3.—President Wilson has signed the \$450,000,000 revenue bill.

### State Passes Big Appropriation Bill

(By United Press) Washington, March 3.—The senate has passed another great appropriation bill which was expected to be held back by the republicans in order to force an extra session, the passage being unanimous.

### Farmers' Legislature Fails in its Purpose

(By United Press) Bismarck, March 3.—The so-called farmer legislature has adjourned without accomplishing the farmer legislation contemplated.

### GERMANY ADMITS INSTRUCTIONS SENT GERMAN MINISTER

(By United Press) Berlin, March 3.—Germany admits that instructions were sent the German minister in Mexico City as to the possibilities of Mexico's part in joining in hostilities against the United States, the admission being semi-official, and great surprise was expressed as to how the United States secured the letter.

Germany further says that Argentine newspapers recently printed what purported to be the revelation of a plot of the United States of a year ago, whereby the United States asked all Americans to join in common action against Germany, and the belief is expressed of treachery on American territory in the United States in getting the Zimmermann letter.

### Detroit Motor People Knew of Zimmerman Letter 3 Weeks Ago

(By United Press) Toledo, Ohio, March 3.—Theodore McManus, an advertising man, said the activity of Germany in Mexico and the Zimmerman letter was known among Detroit motor car manufacturers three weeks before the letter gained publicity.

### Declined to Change Resolution Wording

Washington, March 3.—The house ways and means committee, of which Rep. Kitchin is chairman, declined to change the wording of the resolution for \$150,000,000 bond issue for the speeding up of construction on warships and munition manufacture so that the ready money shall be available to be expended in accordance with law.

**BISHOP LAWRENCE.**  
He Sees Many Poor on \$100,000 Incomes.

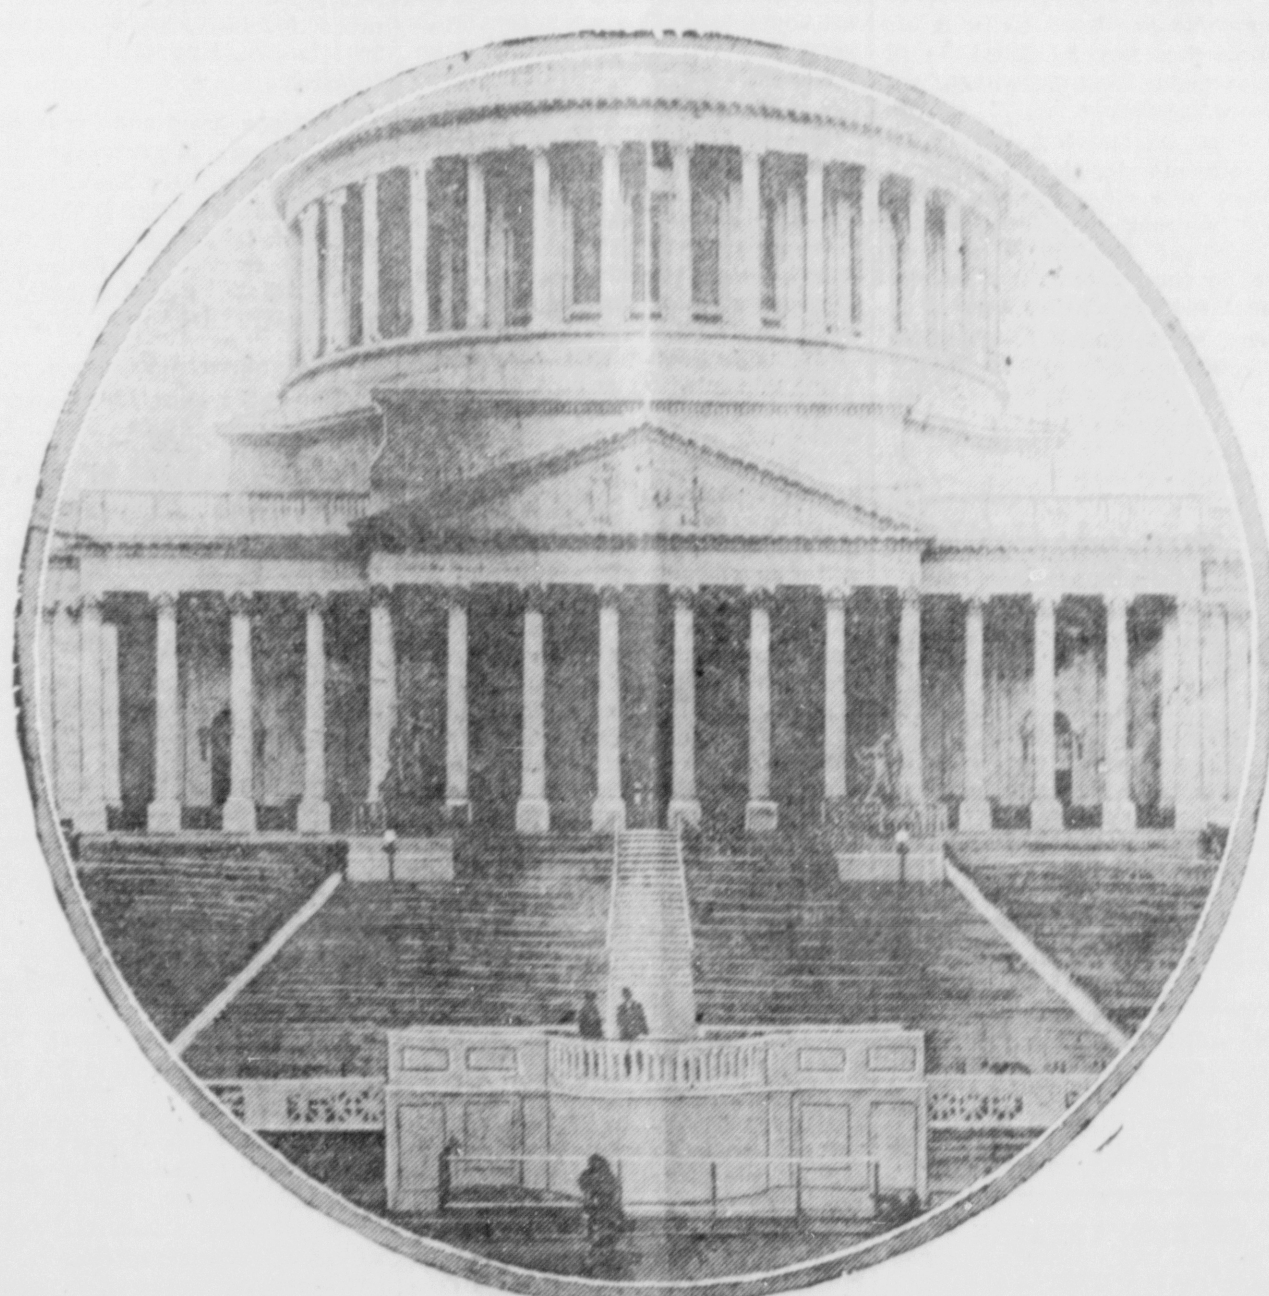

Photo by American Press Association.

Bishop Lawrence, who is raising a \$5,000,000 pension fund for Episcopalian clergy, told his congregation in Trinity church, Boston, that many people with \$100,000 incomes are really poor. "There is a great tendency," he stated, "for people to make their fixed charges so high, with houses and expenditures of all sorts, to set a pace so near their income that when they reach forty-five or fifty years of age they are really poor people."

### Wilson will Absolve Himself from Blame

(By United Press) Washington, March 3.—If the big supply bills of the government are held up in an attempt to force an extra session of congress, President Wilson will absolve himself of all responsibility and make an effort to put the blame where it belongs, and an effort to shift this responsibility may take the form of a written communication to congress.

### Stand Where President Will Be Inaugurated March 5

A stand has been built at the foot of the main steps of the Capitol, from which the president will be inaugurated March 5. This view was taken looking from a point back of the stand and toward the Capitol. The steps have been covered with seats for the audience that will witness the ceremony.

### PATEK & SON SELL TO HELSTEIN & NEWMAN

**Minneapolis Furniture Men Acquire Local Business Which has Been Established Here 35 Years**

**Will Continue Policy of the Patek House, Seeking to Enlarge Business and Sphere of Activity**

L. Helstein and Sam Newman, experienced and influential furniture men of Minneapolis, operating under the firm name of Helstein & Newman, have bought the C. M. Patek & Son furniture business, the new firm taking possession today.

C. M. Patek & Son, established here 35 years, have been doing a most successful business and were widely known throughout central and northern Minnesota. Alert, aggressive and advertising well, they were one of the most popular institutions in the city.

Mr. Helstein and Mr. Newman bring to Brainerd the experience gained in four years of merchandising in Minneapolis. Coupled with this is Mr. Helstein's 25 years successful manufacturing of furniture in West Superior, Wis.

Mr. Newman is a son-in-law of Mr. Helstein and both will soon remove their families to Brainerd. At the Newman home the work just brought a pretty baby.

The Dispatch welcomes Messrs. Helstein and Newman to Brainerd and assures them that their earnest desires to please Brainerd customers and to extend their activity in broadening out their business will meet with a hearty response.

Mr. Patek will retire, continuing his residence in Brainerd. His son, Harry Patek, will within the month remove to Milwaukee, Wis., having accepted a position with Patek Brothers. Brainerd people wish both a large measure of success and assure them their efforts in the past in up-building Brainerd are appreciated.

### MEXICAN MINISTER SAYS PLOT FAILED

Paris, March 3.—The note of German Foreign Minister Zimmermann to Minister von Eckhardt, in Mexico City, comment thereon from Washington and detailed reports of proceedings in congress, are published prominently in the French press, with many caustic editorials and local news contributions on the same subject.

Luis Quintanilla, the new Mexican minister, says in the Temps: "Germany thought Mexico would be able to serve her views. The war has brought into my country a considerable number of Germans, who since 1914, have made an admirable campaign in favor of their cause; I cannot qualify it otherwise than as admirable."

"They founded newspapers and they distributed considerable sums for propaganda to lead opinion astray. Nevertheless, they have not succeeded and the sympathies of Mexicans generally are for the entente allies."

### Brazen Admission Mexican Conspiracy Removes Opposition

(By United Press)

Washington, March 3.—Germany's unabashed acknowledgment of the Mexican conspiracy appears to have removed the last vestige of senate opposition to the armed neutrality bill. The republicans are amazed at the brazen admission, and have announced their support of the measure. LaFollette alone was utterly silent.

### Second Session of the 64th Congress

(By United Press) Washington, March 3.—The second session of the 64th congress will adjourn sine die at noon tomorrow. The actual adjournment will probably be several hours later, but clocks will be stopped tonight.

### Ferdinand is Ill

Rome, March 3.—King Ferdinand of Bulgaria is dangerously ill at an Austrian health resort.

GUARDS POSTED AT IOWA MUNITIONS PLANTS.  
Des Moines, March 3.—The police department announced that in view of the tense international situation guards had been posted at manufacturing plants here engaged in the manufacture of articles used to make munitions of war.  
It was announced that a number of former soldiers had been enlisted by the public safety department and that guards would be furnished wherever they may be required.

**THREE MEN ARE INDICTED**

Accused of Violating Federal Neu-  
trality Statutes.

New York, March 3.—Albert A. San-  
der, Carl W. Wunnenberg and George  
Vaux Bacon were indicted by a fed-  
eral grand jury here on a charge of  
violating the federal laws "in setting  
on foot a military enterprise in this  
country directed against a country  
with which we are now at peace."

Sanders and Wunnenberg were con-  
nected with the central powers war  
film exchange, with offices in this  
city. Bacon is under arrest in Eng-  
land. Two other Americans are de-  
tained in Holland in connection with  
alleged espionage activities of the film  
company.

Tentative pleas of not guilty were  
made by Charles Oberwager, attorney  
for the indicted men. He declared he  
would demur on the ground that send-  
ing men abroad "to gather news rela-  
tive to social and economical condi-  
tions" did not constitute violation of  
the federal laws.

**DESIRES AID FOR FRANCE**

Lord Northcliffe Asks Americans to  
Assist Financially.

London, March 3.—Lord Northcliffe,  
the publisher, said in an address be-  
fore the American Luncheon club he  
had every assurance the British could  
finance the war, but that he would  
welcome some sharing of the enor-  
mous financial burden, and would be  
glad if America showed some of its  
historic sympathy with France by  
bearing some of the crushing finan-  
cial strain which had been imposed on her.  
Lord Northcliffe also said he was  
certain the allies could win the war  
by themselves, but that for many sen-  
timental reasons "I would like to see  
America in the war side by side with  
us."

ment.

**SESSIONS OF THREE  
LEGISLATURES END**

Bismarck, N. D., March 3.—The  
North Dakota legislature, which opened  
what was predicted to be a his-  
torical session Jan. 2, closed its fif-  
teenth assembly sine die without any  
notable achievements.

Pierre, S. D., March 3.—South Da-  
kota's fifteenth legislative assembly  
adjourned sine die. Passage of the  
\$250,000 appropriation measure for  
state highway aid, which was au-  
thorized by the voters at the last elec-  
tion, featured the closing day.

Helena, Mont., March 3.—The Mon-  
tana legislature adjourned. One of  
the closing acts was the adoption  
unanimously by a standing vote in  
both houses of a resolution placing the  
resources of Montana, human and ma-  
terial, at the service of the federal  
government. H. C. Brown.

**CONFUSION IN THE HOUSE**

Members Are Noisy and Conversation  
Goes on Everywhere While Clark  
Tries to Get Through Extra Amount  
of Work Heaped on Congress—Lob-  
bies Are Crowded.

By ARTHUR W. DUNN.

Washington, March 2.—[Special.]—  
Hammer, hammer, hammer! All day  
long Speaker Clark pounds upon the  
desk in front of him, hitting it hard  
and with the sound resounding  
throughout the chamber. "The house  
will be in order!" he shouts until he is  
hoarse. But the house will not be or-  
derly. It continues to be noisy, con-  
versation going on everywhere, many  
members intent upon their own affairs  
and careless of what is trying to be  
done to get through the extra amount  
of legislation which stacks up at the  
close of a short session.

It is rather surprising that business  
can be transacted at all under the con-  
ditions, but the house grinds away,  
and in spite of all the confusion a  
great deal of business is transacted—  
all that is absolutely necessary to close  
up the session.

**Lobbies Are Crowded.**

The lobbies of congress are crowded  
these days by people who are inter-  
ested in getting a law passed or an amend-  
ment in a bill, well knowing that this  
is perhaps the last chance for at least  
eighteen months to get anything out of  
congress.

All the time there are also men on  
the lookout to see that something is  
not "slipped over on them" in an ap-  
propriation bill. Past experience has  
shown that some very important legis-  
lation is often put in a bill during the  
last hours, legislation which could com-  
mand only a few votes if it were un-  
derstood.

**Field Day in the House.**

Once in awhile the house of rep-  
resentatives becomes a very interesting  
body. Such was the case on the oc-  
casion when the senate amendments  
to the postoffice appropriation bill were  
considered. While there was consider-  
able interest manifested in the amend-  
ment regarding pneumatic tubes, the  
great subject was that amendment  
which prevented liquor advertisements  
from circulating in dry territory, to  
which was coupled the Reed amend-  
ment absolutely prohibiting liquor from  
going into dry states. There were quite  
a number of amusing incidents, but  
the interest was intense among the  
entire membership of the house.

A feature of the day was the atti-  
tude of certain men who have always  
voted for prohibition and come from  
prohibition states, and who were do-  
ing their best to prevent the adoption  
of the Reed amendment. These men  
did not want to interfere with the pres-  
ent system which allows liquor in  
small quantities to go into their states  
for personal use.

During some of the discussions the  
cry of "Bone dry!" was frequently  
heard, which is a term now used when  
states are absolutely dry or is applied  
to legislation which would make them  
absolutely dry.

**Browning Knew.**

Several times during the closing days  
of congress warnings went forth from  
the leaders, particularly Minority Lead-  
er Mann and Chairman Fitzgerald of  
the appropriations committee, telling  
the house that it was absolutely neces-  
sary to hurry the conference reports  
on all of the big appropriation bills in  
order to give the enrolling clerks time  
to enroll these bills. At one stage Con-  
gressman Browning of New Jersey,  
who for sixteen years was the chief  
clerk of the house, told of his own ex-  
perience in this regard and pointed out

the difficulty which these enrolling  
clerks experience. He said that they  
oftentimes have had to work thirty-  
six hours on a stretch without leaving  
the enrolling room in order to get the  
bills enrolled in time for the signa-  
tures necessary to complete them.

**Lincoln and Washington.**

Notwithstanding the fact that con-  
gress was rushed very much in this  
short session time was found to pay  
tribute to both Lincoln and Washing-  
ton. Lincoln was remembered at con-  
siderable length by speeches and the  
reading of his immortal Gettysburg  
address in the house, and a brief eul-  
ogy was paid to him by Senator Lewis  
of Illinois in the senate. The senate  
continued its time honored custom of  
having the farewell address of Wash-  
ington read, while the house not only  
had the address, but listened to sev-  
eral speeches. It was also apparent  
that congress remembered men of  
deeds by attending the funeral of the  
late Admiral Dewey and by short eu-  
logies on General Finston.

**One of Howard's Stories.**

During the discussion of the Reed  
amendment, or, as it will be known in  
the future, the "bone dry" amendment,  
Congressman Howard of Georgia told  
a story of his youth. He said that  
one day he became interested in a  
bug which he found was looking in  
one direction and pulling in another.  
He said that this bug illustrated the  
men who were talking prohibition and  
were doing what they could to defeat  
the Reed amendment.

CHARMING SINGER  
HERE MARCH 7TH

Edna Swanson Ver-Haar Soloist at Brainerd Musical Club, Elks Hall, Wednesday Evening

## IS A BRILLIANT CONTRALTO

Magnetic Personality, Gracious Appearance, Ability to Reach the Heart in Song

Edna Swanson Ver-Haar, for a number of years a successful contralto to with many brilliant appearances to her credit, will sing under Brainerd Musical Club auspices at Elks hall Wednesday evening, March 7. Members will be admitted on membership tickets, non-members pay 50c, students 25c.

Edna Ver-Haar's tone is one of exquisite beauty, full of emotion and that brilliant warmth which is always appealing.

Knowing her natural talent, charming, magnetic personality, gracious appearance, and her ability to reach the hearts of her audience in song, her friends are proud to offer her as one of the greatest young singers of today.

She is of Swedish descent, though American born, and possesses a vocal equipment of the remarkable characteristics of her distinguished country-women, Mme. Julia Claussen.

The Music News says: "Edna Swanson Ver-Haar, who always makes a lasting impression with her pleasing and gracious personality, and exceptionally well produced and beautiful voice, added much to the artistic success of the evening."

The Musical Leader says: "Mrs. Ver-Haar has a sympathetic voice, unusual in range while the clarity of her enunciation is excellent."

The Chicago American said: "Miss Edna Swanson is one of the prettiest girls in America and is one of the best known in Chicago musical circles." Her beauty is as far famed as her gift of song.

## Good for the Whole Family

"Granny" Chamberlain "A good cough remedy is one that can be depended upon to cure coughs. Not one that cures some particular cough, but coughs in general."

It must be a cough remedy that can be relied upon for all the different coughs that are so prevalent. While the causes of all coughs are primarily the same, yet the condition of the patient is what makes the difference in the nature of the cough itself. Coughs of healthy persons are easier to cure than the coughs of invalids. The powerful convulsive cough of a large man is harder to cure than the cough of a baby. If you get a remedy that will cure a large man's cough and yet not be too powerful for the baby, you have a good cough remedy.

## Chamberlain's Cough Remedy

is just this kind of remedy. It is good for any member of the family. It relieves coughs of all kinds. It is the product of much thought and study to produce an ideal cough remedy. It is composed of things which cure easily and soothingly without harming the most delicate tissues of the throat. It acts as easily and safely on the young as on the old, and is the ideal remedy for coughs, colds, croup, influenza, whooping cough and bronchitis.

Yours for Health — *Granny Chamberlain*

Office in Dispatch Building on 6th St.

Entered at the post office at Brainerd, Minn., as second class matter.

SATURDAY, MARCH 3, 1917

Spring has come, or is expected, according to the Little Falls Herald, which says that "Ed Lavoie, who has charge of the upper drive on the Mississippi river, has a crew of men at work repairing the wangers and getting in readiness for the driving season." It may be possible that the confiscated booze dumped into the Mississippi by the Indian agents at Brainerd was of sufficient strength to rot the ice between Brainerd and the down river town and give the appearance of a general break-up.

A Chicago jeweler placed 1,800 eggs on the market Friday at an advertised price of 10 cents below the market quotation and closed his entire holdings out in 50 minutes. Eggs and potatoes are among the precious articles, like diamonds, that jewelers now hold in reserve until the top of the market is reached before they offer them for sale. This dealer, evidently thought that the bottom was about to fall out of the egg business.

When the vessel carrying von Bernstorff and his shower of flowers, sent him by American admirers, left the dock at New York, he must have inwardly felt that he had fooled the American people, if the visions of Germany-Mexico-Japan in an alliance against the United States were still fresh in his memory and he wrote the letter.

Potatoes took a drop of 60 cents on the market and Bemidji and surrounding towns are quoting a price of \$1.40 for the tubers. A few more housewives leagues, boycotts and an embargo on food stuffs and the price of things to eat necessary to sustain life in this country will assume a normal condition.

Motley and Little Falls will both vote on the license question at the spring election, the former is dry and the latter wet. Neither seems to be satisfied with the present conditions.

## BIRDLAND DANCE HALLS.

Playhouses and Gardens of the Australian Bower Birds.

There are several species of bower birds, chief among them the Satin and the New Guinea. The Satin bower bird is the best known. When the bowers were first discovered it was supposed that they were playhouses built by the native children, but as a matter of fact they are the dance halls of birdland.

The nests are built in the trees and have no connection with the playhouses. The male birds build these latter and rather every bright and shining object they can find to adorn the entrance to the bower. When it is completed, according to one who has watched them, little "at homes" are given daily, at which the males meet and pay their court to their ladyloves, now bowing and scraping, now playing hide and seek through the bower and now doing an absurdly dignified dance for their edification.

Newton's bower bird decorates its bower with fresh flowers every day, and if a visiting male bird wants to fight all he has to do is to disturb one of these flowers. The master of the bower proceeds with the painful duty of teaching him how to behave in company, while the remainder of the party raise a great racket, but never interfere. A naturalist studying them disarranged one of their flowers, but each time he did it the bower master rearranged it with great care.—National Geographic Magazine.

## Sound Advice.

"Is there no way of stopping these cyclones?" asked a man of the traveler who was recounting his experiences in far countries.

"No," replied the narrator. "The best way is to go right along with 'em."—Exchange.

## 40,000 Will Take Part In the Parade on Inauguration Day

Critical Times Will Not Hamper Unusual Brilliance of Ceremonies In Washington March 5. No Inaugural Ball.

Vice President's Wife Will Be Seen In Procession For the First Time—Five Thousand Suffragists on Picket Duty.

## 40,000 WILL TAKE PART IN INAUGURAL PARADE IN WASHINGTON MARCH 5

Forty thousand will take part in the inaugural parade when President Wilson again is inducted into office March 5, the war department has announced. The makeup of the column, commanded by Major General Scott, chief of staff, as grand marshal, will be:

First Division.—Five thousand two hundred of the regular establishment, including Annapolis and West Point cadets, coast artillery, engineers, marines and bluejackets. Second Division.—National guard, school cadets and all others under arms who are not regulars. Third Division.—G. A. R. and Confederate Veterans, Army and Navy Union, Spanish War Veterans, etc. Fourth Division.—Civic organizations.

DESPITE the critical international situation and even the possibility that the United States may be drawn into the European war at any moment, the people of this country insist upon seeing their president inaugurated on March 5 with all the pomp and ceremony of which the occasion is worthy. The usual date of inauguration, March 4, falls on a Sunday this year, and therefore President Wilson will go through the ceremony

tion of the capitol building, the Peace monument and the Bartholdi fountain in the botanic garden has also been arranged. He estimated that at least \$4,000 has been spent for the illuminations.

James S. Easby-Smith said the court of honor would be the most beautiful Washington ever saw. Plans both for the structure and for its decoration and illumination along original and novel lines are practically completed. Without any cost to the committee a large amount of electrical equipment has been secured.

A. Leftwich Sinclair, as chairman of the public comfort and accommodations committee, has listed all boarding and rooming houses.

The president and vice president will be accompanied by their wives when they ride up Pennsylvania avenue to the White House following the inaugural ceremonies at the capitol. Announcement to this effect was made the other day by Senator Overman of North Carolina, chairman of the joint inaugural committee of congress.

In the carriage with the president and Mrs. Wilson will ride Senator Overman and Representative Rucker of Missouri, chairmen of the senate and house inaugural committees respectively.

Riding with the vice president and Mrs. Marshall will be Senator Smith

president's state. The District of Columbia, the residence of both president and vice president during their term of office, will be represented by Troop B.

## Five Thousand Suffrage Pickets.

The militant suffragists, who have been picketing the White House for the last month, have announced that 5,000 fair pickets will be placed around the executive mansion on inauguration day to flaunt banners in the face of the president.

This decision will be carried out in spite of the disapproval voiced by a meeting of members of the National Woman Suffrage party.

"Fast" colors only are desired for decorations for the inauguration. The committee on decorations has made this plain in a letter which it has sent to merchants who sell cloth for decorative purposes and to professional decorators. Colors that are apt to "run" in event of rain are not wanted, for the committee wants to safeguard against the disfigurement of buildings. The letter of the committee says in part:

"It is desired by the committee on street decorations that materials with 'fast' colors be used in decorating buildings, stands and homes during the inaugural week.

"In the event of inclement weather, which is apt to occur during the end of February and the first week of March, this will prevent the washing down of colors and destroying the appearance of the many decorative features.

"If it be found difficult to have on hand for sale any of the above it is suggested that plain, unbleached cotton cloth be used for covering the stands, balconies or platforms and that laurel rope garlanded with flags and shields be used in this connection. Red, white and blue strands of cheese cloth, if the colors are 'fast,' can be adopted and draped over the cotton cloth to good effect. Full size examples of the combination of decorating material can be seen at our headquarters."

## Floats For Women.

Work has been completed on the twenty-four floats which are to be a feature of the part women are to play in the inaugural parade. The cost of building these floats was met by the wives of representatives and senators, but they are not to ride on them.

Major General Hugh L. Scott, grand marshal of the inaugural parade, and his adjutant general, Brigadier General Carroll A. Devol, have gone ahead with their preparations for the event without regard to the possibilities of war.

General Scott tendered command of the veteran division to W. J. Patterson of Pittsburgh, commander in chief of the Grand Army of the Republic, but Mr. Patterson replied that he would be unable to attend the inaugural ceremonies and suggested the appointment of A. J. Huntton, department commander of the District of Columbia, as marshal of the veteran division. That advice was followed. Commander Patterson said also that the G. A. R. veterans preferred to march the entire distance of the parade instead of entering the line at Fourteenth street and passing in review in the court of honor. Consequently the plan of having the old soldiers assemble at Fourteenth street has been abandoned, and they will be assigned a position near the capitol.

## LEARN TO SAVE.

Acquire the Habit of Spending Less Than You Earn.

Americans are not as thrifty as the people of many other nations. Savings bank statistics show this. Our money comes too easily, even in normal times. We feed the garbage pails too well. We ignore the little short cuts of economy. We forget the coming rainy day in our enjoyment of the present fair day.

And if savings bank reports are not enough, turn to the figures of the activities. See how few men, for instance, reach the period of natural retirement with enough of an estate accumulated to keep them through the remaining years of their lives. See how many are compelled to toil for a daily pittance beyond the time when they should have the privilege of retiring to ease on the income of their savings or are left stranded because unable to work.

All industry is built on the savings of those who at some time have learned the wisdom of putting aside some portion of their earnings as an investment. Abolition of thrift would mean the abolition of organized business. It would hardly be an exaggeration to say it would mean the abolition of civilization itself.

Save—save a little. Get the habit of spending less than your income. Make some banker your friend. Have a stake in the community. Stretch the pay envelope a little farther than merely to the next pay day. Buy a home. Don't float; anchor!

Tell those friends. Certainly. But it is astonishing how many people there are in the United States who have never taken them to heart.—Cleveland Plain Dealer.

## TO URGE PEACE IN EUROPE

Conference of Latin-American Nations Proposed.

Buenos Ayres, March 2.—Chile has received a proposal from Argentina to participate in a conference of all Latin-American nations.

No date is set, but Buenos Ayres is specified as the meeting place for the conference to urge peace in Europe and it was noticed that the United States was not included in the group of nations asked to participate.

## MAN AND HIS NECKTIE.

The Mystery That Cloaks the Fate of Discarded Cravats.

Every morning we stand before the mirror, flap the large end over and around, push it behind and up draw it carefully through. It becomes a habit, and yet, like dining, it has a certain fascination. The keen pleasure of a new and increased cravat helps to make a whole week brighter. And that dread day when a white spot appears in the center of the front of our favorite green one or when the beloved brown parts internally and while appearing the same without tells us that it is gone forever—that day our coffee is bitter and the mystery low.

But we never cruelly desert a faithful friend. For a couple of times after the white spot appears we try to tie it farther up or low down, usually with pathetically ineffectual results. And then we pasture it back somewhere on the rack with the bow ties that are not to our taste any more and the selections made by a worthy aunt at a reduction sale and let it enjoy a quiet old age.

Somewhat eventually it disappears. We do not know how. Perhaps a careless maid drops it in a wastebasket or a plotting wife makes way with it. But most probably, like old watches and college textbooks, it has some unseen heaven of its own whither it is wafted after its life among us is over.—Atlantic Monthly.

## Got His Answer.

She was a demure little woman, with a baby. As the car was crowded with shoppers, she did not put up the little one, who was old enough to sit up, on the seat beside her. She carried it on her lap and made room for a fierce looking big man, with a newspaper. The child kicked its tiny legs in delight at the strange things it saw while riding along, and its shoes rubbed the man's trousers.

"Perhaps, madam," he exclaimed, "you imagine that this conveyance is your private carriage?"

"Oh, no; I don't," was the prompt reply. "If it was you wouldn't be riding in it."

## Copying Our National Parks.

Spain is to have national parks similar to those in the United States. Pursuant to a recent law the government will select especially picturesque tracts of land, incorporate them in a national park system, arrange for suitable means of communication in order that visitors may reach them easily and preserve the natural features of such tracts from deterioration. Advancing the project its sponsors called attention to the Yellowstone, Yosemite, General Grant, Crater Lake and other national parks in this country.

## Guard Your Habits.

We are creatures of habit. We succeed or fail as we acquire good habits or bad ones, and we acquire good habits as easily as bad ones. That is a fact. Most people don't believe this. Only those who find it out succeed in life.—Herbert Spencer.

## TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backachy or Bladder troubles you—Salts is fine for Kidneys.

Leftover Sandwiches.  
Sometimes after a party there are sandwiches left over. Here is an excellent way of using them up: Make a batter exactly like you use for pancakes and add to it either sugar or salt, according to whether the sandwiches are sweet or savory. Then each sandwich is dipped in the batter and fried till a golden brown in fat from which a faint bluish smoke is rising. No matter how dry they are they are delicious done in this way.

Whenever you can look at yourself and be satisfied you should begin to suspect yourself of moral blindness.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

## \$1675 INTEREST IS NOW DUE

Council, Which Has Been Blamed for Being Stingy, Saved Enough to Meet Payment

### RESENT SOME OF CRITICISM

Local Paper Termed Them an "Aldermanic Bunch," Did the Best They Could

Accused of being stingy, etc., of not ordering on lights when there was no money to pay for them, etc., there shines out today, like an electric headlight in a dark night, the fact that the council saved enough to meet a coming interest charge of \$1675 due this month on city hall bonds.

Fritz Koop, chairman of the finance committee, said the bonds of Brainerd would never be defaulted and that regardless of whatever criticism was leveled at the council, the present members had preserved the business credit of the city.

The fact that a local paper had termed the city fathers an "aldermanic bunch" had provoked considerable resentment.

### FUNERAL ON SUNDAY

Services for C. B. Buckman to be Conducted at Little Falls on Sunday at 2:30 o'clock

Funeral services for C. B. Buckman who died Thursday at Battle Creek, Mich., will be held Sunday afternoon at the Church of Our Saviour (Episcopal) and interment will be in Oakland cemetery.

The body will be brought to Little Falls Saturday afternoon on the North Coast Limited, which is due to arrive at 1:55 p. m. It will be taken to the home of Mr. and Mrs. Frank Klewiel until the time of the funeral. Mrs. Buckman and her daughter, Mrs. J. A. Kennedy of Baudette, who have been with Mr. Buckman at the sanatorium, will accompany the remains.

Four of the largest fraternal organizations of the city, of which Mr. Buckman was a member, will attend the funeral and some of them will be at the station to meet the body. The Masons, the Elks, the Woodmen and the Workmen are the lodges to which Mr. Buckman belonged.

Rev. George A. Ray of the Episcopal church, will conduct the funeral services.

### COMMUNICATION

Editor Dispatch:—That was a particularly strong and forceful editorial appearing in last night's issue under the caption "The Mayorality Question." I think it safe to say that fully ninety-five percent of the citizens of Brainerd will agree with the editorial that we want a man of "backbone, levelheaded" who cannot be swayed by any "pull" in an office that carries with it duties of an administrative or legislative nature. While this is true of the mayorality it is doubly true of Crow Wing county's legislative body that has the disbursing of every dollar of the taxpayers money not specifically disbursed by statute. Had our legislative body of 1915 been composed of such timber, this Gull lake road botch could never have been pulled off, thus penalizing the Gull lake road farmers for all time, and the road would have stayed where it properly belonged—where by the unanimous vote of the board and without a single protest from any source, it was placed by the 1914 board—where it would now serve all the Gull lake road traffic, instead of as now, only a small fraction, and that too, only during the summer months and solely for pleasure seeking purposes.

## EARL ARNOLD PASSED AWAY

Former Bookkeeper of Brainerd State Bank Died After Protracted Illness

### WAS WELL KNOWN IN DEERWOOD

Also Clerk for Northern Pacific Railway at Staples—No Date Yet Set for Funeral

Earl Arnold, age 26, died Friday night from a complication of diseases, the end coming peacefully in the presence of the family. He made his home at 609 South Quince street.

He leaves a mother, Mrs. Sophie Arnold, two sisters, Mrs. May Alden of Staples, and Mrs. Maud Johnson of Nymore, one brother Norbert, of Staples.

He was born and raised in Brainerd and attended public schools here. For two years, from 1908 to 1910 he was employed as bookkeeper at the Brainerd State bank, later as bookkeeper at the First National bank of Deerwood and then by the Potts Exploration Co., of Deerwood. He also worked later as a clerk for the Northern Pacific railway at Staples.

Until all relatives are communicated with, no date for the funeral will be announced.

The sympathy of the community is extended to the bereaved family.

## UNCLE SAM LIBELS LIQUOR

Action Brought in United States District Court at Duluth Against 543 Quarts of Whiskey, Etc.

### MOST OF IT NOW IN THE RIVER

Government Asks Seizure be Condemned, Assignment was Seized By Federal Agents

John Barleycorn, who likes to pose in various heroic disguises, says the Duluth News Tribune, has got the law on him again.

Uncle Sam tore the mask off the deep-dyed villain when he tried to introduce 543 quarts of whiskey, 12 quarts of wine, two quarts of gin and one quart of rum into Brainerd, Indian territory.

The government Friday brought action in libel against the liquor in United States district court, Duluth, and Uncle Sam asks that it be condemned. The assignment was seized by federal agents as it was being transported into the territory in a sled.

The liquor was in possession of Evan G. Boyd, special officer in the Indian service, at Brainerd. That is the Duluth story.

The Brainerd facts appear that the whole consignment has been poured into the sewer several days ago and that Uncle Sam is getting worried over some fire water which is "non est." Towns on the banks of the Mississippi below Brainerd have been waiting for the water with a "stick in it."

St. Cloud reports that Little Falls never let a drop of the "spirited" water go by and that analysis at the "Granite City" has failed to identify anything vigorous in the fluid.

### WHY IT SUCCEEDS

Because it's for One Thing Only and Brainerd People Appreciate This

Nothing can be good for everything.

Doing one thing well brings success.

Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys.

Here is Brainerd evidence to prove their worth.

Charles Ellison, 512 S. Quince St., Brainerd, says: "My kidneys were disordered for several years and seemed to be gradually getting worse. I was taken with such awful pains in my back that I had to go to bed. Medicine patched me up somewhat and I got out in a few weeks, but I continued to suffer severely. I finally got Doan's Kidney Pills at H. P. Dunn's drug store and a few boxes put me in good shape."

### LASTING BENEFIT

Over five years later Mr. Ellison said: "I can still recommend Doan's Kidney Pills. The benefit I got has lasted."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ellison has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv't.

## LAST PREACHING IN OLD AUDITORIUM

First Methodist Church Building in Which Services Have Been Conducted Since 1886 Vacated

### CONSTRUCTION NOW UNDER WAY

Regular Services in Basement Hereafter Until New Building Completed, Dedication June 10

Tomorrow evening will be the last public preaching service conducted in the old auditorium of the Methodist church of Brainerd. The building in which services have been conducted since 1886, will be formally vacated by the congregation on Sunday, regular services being held in the basement hereafter until the completion of the new building.

Last Thursday, March 1st, the work of completing the new church was begun under the management of contractor, J. E. Jackson and a large crew of men.

The contract for the new pews has been let to D. M. Witmer Co. of Minneapolis. The contract for art glass has been let to the Ford Brothers Art Glass Co., also of Minneapolis. The sash and door work has been let to the Wadena Sash and Door Co., and other contracts for material are being let as rapidly as possible as the work is being pushed to completion as it is expected to dedicate the new church, June 10th, at which time Bishop Charles Bayard Mitchell has agreed to be present and officiate at this important service. All past ministers of the church are to be invited and local ministers are expected to participate in this memorable event.

Sunday morning at 10:30 o'clock will occur the regular preaching service, the pastor, Rev. F. W. Hill, taking as the subject of the sermon, "The Bread of Life." Immediately following the sermon the administration of the sacrament of the Lord's Supper will take place. This will be an impressive service. It will be the last communion service held at this altar which has been used for so many years and before which the present pastor was ordained by Bishop Earl Cranston in the year 1901.

The Bible school will have a special program tomorrow at 12 o'clock and every pupil is urged to be out.

The evening service at 7:45 will be the last one held in the old auditorium. The sermon subject by the pastor will be "Had Israel Only Listened to the Voice of God, What Might Have Happened?" The sermon will deal with what the church has done and expects to do and what any successful church needs to do to be efficient.

The members and friends of the church are cordially invited to be out on Sunday evening so that they may have a part in the last service in the old church. Immediately following the conclusion of the Sunday evening service, there will be a reception by the audience when some of the lighter articles of service will be removed with formality to the basement of the building where church will be held until the new auditorium is ready.

### SALE OF ORE

Steel Company of Ontario, Canada, Pays \$2 Ton to Paterson Construction Company

Under recent agreements made The Steel Co., of Canada, Limited, of Hamilton, Ontario, Canada, has paid \$2 a ton for some 50,000 tons of iron ore mined at the Wilcox mine of the Canadian-Cuyuna Ore Co. at Woodrow.

In 1917 it is expected that 50,000 tons will be mined, payment for iron mined to be made on the twentieth of each month.

### HARTMAN TELLS STORY

Of His Trip and the Struggle to Win the Great Dog Derby—Will be at the Empress Sunday

Mr. Hartman will appear with moving pictures of the Winnipeg-St. Paul dog race, and with his racing dogs at each performance of the Empress theatre Sunday, March 4.

(BY FRED HARTMAN)

Five years ago, at the age of 21, I left the Boston School of Technology, having taken a course in chemistry, and went to the Hudson Bay gold mining country near Le Pas, Manitoba, to seek my fortune. My main purpose was to get a stake and to use it to start myself in laboratory industrial research work.

After unvarying misfortunes it dawned on me that chasing the rainbow in a promising ore section led only in an endless circle in which the chances of success were slight.

Then I heard that Louis W. Hill, president of the St. Paul Outdoor Sports Carnival, had offered \$1,000 in prizes for the longest sled race ever run, from Winnipeg to St. Paul, a distance of 510 miles. Albert Campbell, winner of the Hudson Bay sweepstakes, his brother Gabriel, Joe Metcalf and Bill Grayson, all from Le Pas, had entered. I lacked a good team of dogs, but this did not seem a great handicap, so I entered. The first prize of \$500 looked good to me, for it meant realizing my ambition to set up a laboratory.

I guess I was thinking of that \$500 prize to the exclusion of all else, and I'm glad it was that way, for it is the man with the single purpose who often wins out.

With five small dogs and my carload I piled onto the trail at Le Pas with the other drivers. We reached Winnipeg two days before the start of the race.

At the start the streets were lined with spectators, though the temperature was 30 below zero. I started second and caught up to the lead man in the outskirts, and we all ran bunched. The footing was bad, and we made only 24 miles that afternoon, tying up at St. Agathe for the night. It was there that I met with my great misfortune. My dogs fought and the leader was killed. I had to resume the race next morning with four dogs, not one of them trained to lead, and so I had to lead them myself. In a few hours I discovered that the four dogs could not pull me, and that meant I had to run the entire distance to St. Paul either before or behind them.

The second day out I trailed the bunch 47 miles and put up for the night at Pembina. The going was hard, and I had to run through heavy snowdrifts most of the way. At this point three Icelandic fishermen were 17 miles ahead of our Le Pas crowd.

The third day we covered 46 miles, stopping at Minto, N. D., with the Icelanders seven miles in the lead.

The fourth day's travel was through a blinding blizzard. I stuck as close to the Hudson Bay trappers as I could. They rode their toboggans most of the time, and my optimism no longer blinded me to the fact that in spite of this their dogs were in better condition than my own, without a load. We got lost at one time and I went nine miles off the route, and reached the Red river. I knew I was miles behind. I struggled along on the blizzard-swept prairie, and night found me thirteen miles from Grand Forks, almost lost in the storm. I was five hours in traveling those thirteen miles, most of the time in snow to my waist. The storm subsided about 9 P. M. and I found my way into the city its lights.

A cheering crowd greeted me, for they had given me up for lost. I was dazed by my wanderings in the blizzard, my face was badly frozen, and my legs worked only mechanically. The other Le Pas men had arrived five hours ahead of me and were deep in sleep.

I realized that I must change my

## BELIEVE ACTION WILL MEAN WAR

Senators Vote Wilson Power  
to Arm Ships.

NEXT MOVE UP TO GERMANY

American Merchant Vessels Will Carry Guns and Trained Gunners to Defend Boats Against Attack by Teutonic Submarines.

Washington, March 3.—President Wilson expects to affix his signature to the armed neutrality bill.

Immediately after the performance of the ceremony which makes the bill a law of the United States the administration will take measures for putting the provisions of the measure into execution. American merchant ships will be supplied with guns and gunners.

In this view of the United States, which is opposed to that of Germany, these ships will be peaceful merchant vessels. If they are not attacked they will proceed on their business without reference to the war.

If they are attacked the submarine responsible will be sunk, if that should be possible.

More than one senator declared passage of the senate bill would mean war sooner or later, but almost without exception they added that they were ready to accept war on those terms. A few insisted that it would not mean war.

None expressed any other expectation than it would be passed and accepted by the house.

Officials Perfecting Plans.

Despite delay in action by the senate the president and his advisers, in the light of Germany's effort to form an alliance with Japan and Mexico to make war on the United States, devoted themselves to the perfection of plans for the defense of American life and interests on the seas, in Mexico and in other Latin-American countries.

First of all they have decided to break the "intimidation blockade" which has tied up American shipping.

This could be accomplished not by sending convoys but by arming merchantmen flying the United States flag and thereby serving notice on Germany that she must assault them at her peril.

There seems to be little doubt that Germany will take up the gauntlet thrown at her feet.

The belief has prevailed, perhaps without foundation, that the German government had given instructions not to torpedo American ships.

If such instructions have been given and continue in force then the country may not expect any news of the destruction of American ships.

Arming Ships an Act of War.

But Germany has taken the position that the arming of merchant ships by a neutral is an act of war and she may consider that the safety of her submarines justifies her in authorizing them to attack an American ship before that vessel, fearing an attack on them, opens fire on the under water destroyers.

The caliber of the guns mounted on American ships will depend, of course, on the size of the ships.

The steamers of the American line will be equipped with six-inch guns and provided with naval gunners or former naval gunners.

Smaller vessels will be supplied with four and three-inch guns.

In a word, all vessels putting to sea under the American flag will in a very few days be in condition to resist attack.

The navy department has been gathering the necessary weapons at the various navy yards.

It also has been looking into the question of obtaining the necessary number of gunners.

Everything is practically ready to go ahead on the new policy laid down by the president.

READY FOR GERMAN DENIAL

State Department Has Conclusive Evidence of Plot.

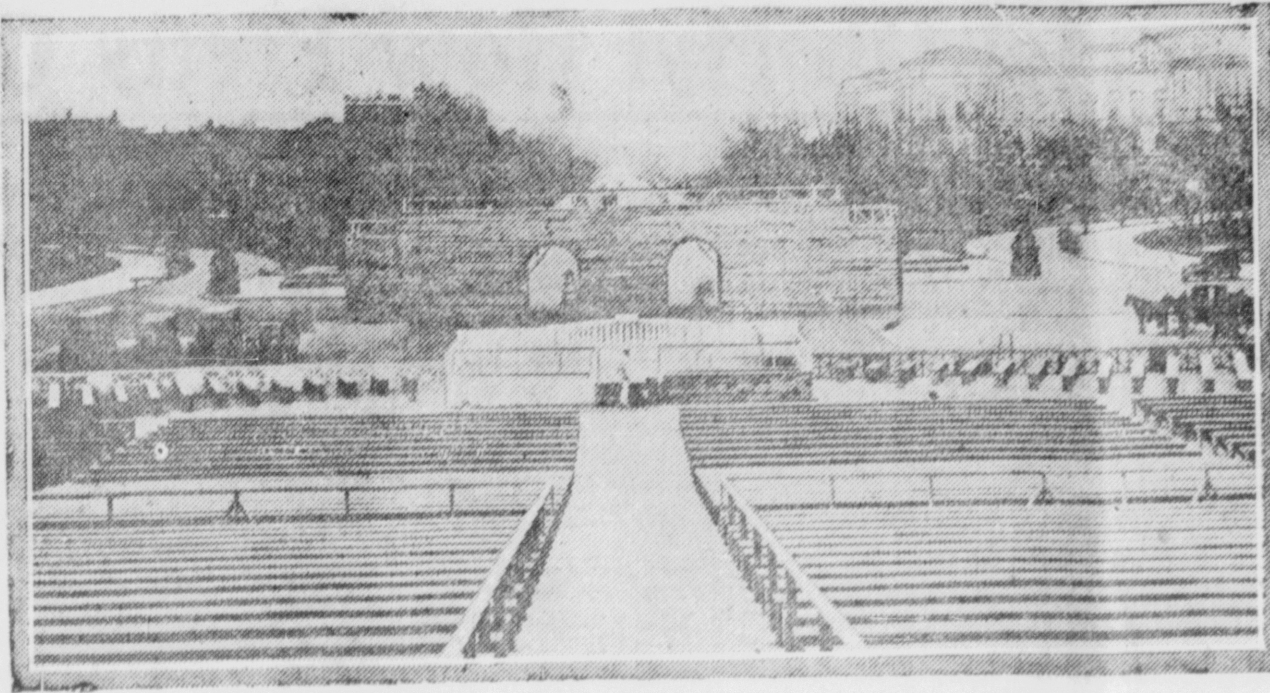

Washington, March 3.—President Wilson and Secretary Lansing have evidence in addition to the Zimmermann document which they have not revealed and which they will make public only should it be necessary to show the importance of action by congress.

It is pointed out that if too much information were allowed to become public the methods by which this government obtained it might be discovered.

This much may be accepted as authoritative; neither the British nor any other allied government gave the note to the United States. It was obtained by this government without any assistance whatever.

Before making it public the state department checked up every point to determine the authenticity of the document. Germany may deny that Zimmermann ever sent such a note. Should she do so and the character of the note thereby be questioned the president and the state department are in a position to prove that the German government is lying.

BILL CARRIES \$535,000,000

Building Program Includes Three Battleships, One Battle Cruiser, Three Scout Cruisers, Fifteen Destroyers, Fifty-eight Coast Submarines and Ten Fleet Submarines.

Washington, March 3.—Congress cleared the way for final enactment of the \$535,000,000 naval appropriation bill after straightening out a controversy between the two houses which for a time threatened to kill the measure and force an extra session.

The trouble was over the refusal of the house to accept an amendment by the senate authorizing a bond issue of \$150,000,000 to meet added expenses provided for in the bill as it passed the senate.

The house leaders, pointing out that revenue legislation could originate only in the house, promptly passed a resolution to that effect and sent it over to the senate.

After hurried conferences between Democratic and Republican leaders and fearful that to reopen debate on the bill would mean its failure the senate, without a roll call, repassed the measure with the bond issue provision eliminated.

At the last moment Senator Jones succeeded in attaching an amendment striking out the clause making it a crime for shipbuilding and other industrial concerns to refuse to surrender their plants to the government in time of war or other proclaimed emergency.

House Cheers Senate Action.

The senate's action was greeted with cheers in the house, where it was conceded that any difficulty over the Jones amendment quickly could be smothered out.

Meantime it was agreed that both houses should put through a joint resolution, originating in the house, authorizing the \$150,000,000 bond issue.

The house formally disagreed to all senate amendments and sent the measure to conference. The action was regarded, however, as largely perfunctory.

Of this money \$115,000,000 is to be used in rushing to completion vessels now under construction and \$35,000,000 is for fifty additional submarines, provided for by senate amendments.

The great construction program provides for the building of three battleships, one battle cruiser, three scout cruisers, fifteen destroyers, one destroyer tender, one submarine tender, fifty-eight coast submarines, ten fleet submarines and three coast guard cutters.

A bond issue is authorized to supply the emergency fund of \$115,000,000 to expedite naval construction and provides for \$35,000,000 for additional submarines.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Baseball Meeting  
Dr. Edwards hands the Dispatch an article regarding the meeting that is to be held on Monday evening at the Chamber of Commerce, with the statement that indications point to a good turn out, that the matter of players and other things incident to the formation of a Brainerd baseball club will be discussed, and that the fans should all be present at the meeting.

CALLS LES DARCY SLACKER

Governor Whitman Stops Proposed Match With Dillon.

Albany, N. Y., March 3.—Governor Whitman has directed the state athletic commission to prohibit the boxing bout scheduled for Madison Square Garden, New York city, on Monday night, between Les Darcy and Jack Dillon, on the ground that Les Darcy is a "slacker."

The commissioners were informed of the governor's decision by the executive himself in his private office. He had summoned them to meet him especially for the purpose. They in turn notified Grant Hugh Browne, manager of the corporation under whose auspices the bout was to have been held, of the executive order, and to give him an opportunity to provide a substitute for Les Darcy.

VESSEL SINKS SUBMARINE

British Steamer Destroys Assailant With Second Shot.

New Orleans, March 3.—Destruction of a German submarine in the Atlantic by the British steamer Knight Companion was reported by the steamer's officers on her arrival here. The steamer was several days on her way to New Orleans, according to the story, when she sighted a German submarine.

The undersea boat fired five shots which missed the steamer before the latter got her defensive gun into action.

The Knight Companion's second shot, at about 7,500 yards, struck the submarine, which immediately sank.

KAISER WILLIAM IS ILL

German Emperor Suffering From Severe Chill.

London, March 3.—The German emperor is suffering from a severe chill according to a Berlin report received by the Exchange Telegraph company by way of Amsterdam.

It is stated that the emperor is compelled to remain indoors, but receives the ministers and communicates daily with headquarters.

The dispatch says that the patient's condition does not cause anxiety, but that his doctors insist on great caution.

ROOSEVELT TALKS OF WAR

Colonel Favors Striking Hard Blow at Germany.

Hartford, Conn., March 3.—"If we go to war with Germany we must strike hard with the largest expeditionary force that can be raised," declared Colonel Roosevelt in an interview, endorsing the Connecticut plan of taking a military census. "No fight was ever won by parrying alone," he continued. "A fight must be won by hitting. It would be ruinous to go to war a little and not much. It would be ruinous to prepare only a little."

GERMAN RETIREMENT ENDS

Are Prepared to Stand on Line South of Bapaume.

London, March 3.—British troops have made additional progress north and south of the Ancre, but the London war office gives no details of the latest advances. Northwest of Poulleux-au-Mont, north of the Ancre and in the region of Warlencourt, south of the Ancre and toward Bapaume, were the scenes of the latest gains.

The Germans apparently are preparing to make a stand on their present line south of Bapaume.

## JAPAN STANDING BY HER ALLIES

Has Received No Proposition  
From Germany.

DECLARES IDEA RIDICULOUS

Foreign Minister Motono Says if Mexico Received Any Proposal to Join in War Against United States Intelligence Was Shown in Not Sending It to Tokio.

Tokio, March 3.—Japan has received no proposition from either Mexico or Germany, directly or indirectly, to join in a possible war against the United States, Viscount Motono, Japanese foreign minister, said.

Viscount Motono said he considered such an idea ridiculous, it being based on the outrageous presumption that Japan would abandon her allies. If Mexico received the proposal, Viscount Motono added, that country showed intelligence in not transmitting it to Japan.

AUSTRIA MAY AVOID BREAK

Said to Be Anxious to Maintain American Friendship.

Berne, March 3.—Recent reports that the Austro-Hungarian government has determined to make every effort to maintain diplomatic relations with the United States are corroborated by information reaching here from Vienna.

The strong impression prevails that Austria-Hungary intends to make every sacrifice which it regards as reasonable to avoid a rupture, although such action apparently would mean flying in the face of Germany.

An American in close touch with Austrian diplomatic affairs, who has just arrived in Berne, said that opinion was divided among those who expect Austria to attempt to placate America as to the causes underlying the divergence from the policy of Germany.

TEN PER CENT DESTROYED

Statistics on Shipping Losses Since War Began.

New York, March 3.—Shipping destroyed since the war began, exclusive of war vessels, presents 10 per cent of the world's merchant marine as it existed Aug. 1, 1914, according to figures published by the Journal of Commerce.

The statistics record the destruction of 2,573 vessels of 41,811,100 gross tons, of which more than half was owned by Great Britain. The next heaviest sufferer has been Norway, with France third, Italy fourth and Germany fifth. Entente losses have been about 75 per cent of the total and Teutonic 20 per cent.

American Ambassador Also Confers With A. J. Balfour.

London, March 3.—Walter Hines Page, the American ambassador, had a long conference with Arthur J. Balfour, the British secretary for foreign affairs, at the foreign office.

Afterward they went together to see Premier Lloyd George at his official residence, where they remained a long time in conference.

## MARCH 3 ENDS AT NOON MARCH 4

Last Legislative Day Always  
Extended Twelve Hours.

THIS IS CONSIDERED LEGAL

President's Term Ends Every Four Years, That of Congress Every Two Years, at Midnight March 3, but Both Carry on Their Functions Until Noon of Following Day.

By ARTHUR W. DUNN.

Washington, March 3.—[Special.]—According to the constitution, the term of the president ends at midnight on March 3 every four years. Every two years the term of a congress ends on March 3. All the official publications show that the terms of members of the house expire on March 3 and that the terms of one-third of the senators expire on that date.

But the president always holds on and signs bills until noon on March 4. The members of congress continue to legislate until that hour, although, strictly speaking, the session ends and their terms end at midnight on March 3.

Legislative Fiction.

It is a legislative fiction that makes March 3 end at noon on March 4. It continues to be the "legislative day" of March 3 by continuous session. If one house or the other should adjourn on March 3 that would end the term, but recesses are taken when rest is required, and the session which begins on March 3 lasts until March 4 at noon.

I do not see why noon of March 4 should have been set as the limit, for if a "legislative day" can last from midnight until 12 noon why not for several days?

But what congress does after the term expires is legal. The journals of each house show that the bills were passed on the legislative day of March 3 and were approved by the president on March 3, and courts in construing legislation accept what the journals of the senate and house say occurred on that date.

Great Day of Laws.

March 3 is the day of numerous laws. More laws and much legislation bear the date March 3. Nearly all the appropriation bills, which are packed with legislation at a short session, are not passed and signed until March 3. Many bills that have been held in controversy while men strove to get their views accepted are finally compromised and passed on the last day of the short session.

And an interesting feature of this whole business is that it happens regularly every two years. There have been weeks of dawdling, but the end is a jam and a rush to get every possible piece of legislation through.

Would Have Averted War.

If the same effort had been made to avert the war with Spain as has been made to prevent the United States from becoming involved in the European conflict there would have been no Spanish war. Why, even the same effort that has been made to keep us out of a war in Mexico if applied in 1898 would have averted the war with Spain.

Nineteen years ago the country was war hungry. A new generation, that knew nothing of the vicissitudes of the sixties, had come upon the scene, and they demanded war. Coupled with it was the longing to help Cuba, and that forced the war with Spain and the Philippine complications which followed.

Peace People Persistent.

It is the peace people who are persistent. The followers of Bryan and all the other pacifists are busy. They have been passing resolutions, writing and protesting against war. They have caused a great deal of deep thinking in high official circles. President Wilson has received a great deal of advice on the subject, and the larger part is against war. Naturally many people do not write favoring war, although there are communications sustaining the president's position.

President Wilson is generally regarded as a peace president, and many persons are appealing to him to stand firm for peace.

Criticized by Schall.

Congressman Schall of Minnesota, the blind member of the house, extended a speech in the Record on the subject of public buildings and grounds, and he closed with this assertion:

"The pork barrel method is not good sense, it is not good business, it is not American, and the best minds of the country are agreed that this archaic method should be abandoned."

When many members publish in the Congressional Record such statements it is not surprising that the newspapers and periodicals of the country should also be critical of the methods now employed to pass public building bills.

Uncle Joe's Whiskers.

Former Speaker Cannon is having a portrait painted just as he now appears. The artist works on the picture in Cannon's office. One day just before beginning a sitting the venerable statesman glanced into the mirror and then, running his hand through his white beard, remarked:

"If you will wait a few minutes I will step down to the barber shop and get my whiskers trimmed."

That was Uncle Joe's little vanity—those whiskers.

## BONE DRY MEASURE GOES TO PRESIDENT

Washington, March 3.—Approval of the conference report on the \$350,000,000 postoffice appropriation bill with its "bone dry" amendment forbidding the shipment of liquor into prohibition states was voted by the senate without roll call. It had previously been agreed to by the house and now goes to the president for his signature.

President Wilson is expected by practically all his closest advisers to sign the measure.

In some quarters, however, the belief persists that the measure might be vetoed and prohibition champions prepared to send petitions to the White House.

The "bone dry" amendment becomes effective immediately upon the attaching of the president's signature.

EXPERT ON CEREAL RUSTS

Government Asks Minnesota to Take Charge of Fight.

Minneapolis, March 3.—Dr. E. C. Stakman of the Minnesota college of agriculture and one of the country's best known experts on cereal rusts has been asked by the United States department of agriculture to take charge of an army of scientists that will fight the rust evil this year. Dr. Stakman will consider the offer.

Dr. Stakman, who is thirty-two years old, is an authority on wheat and other cereal rusts.

"We are pleased at the honor the government has conferred on Dr. Stakman," said Dr. E. M. Freeman, head of the division. "He has become almost indispensable to Minnesota and I don't want him to leave now."

The government plans to learn the facts of the rust situation and then begin a fight to drive it from the country.

POOR FARM INMATE KILLS MATRON AND ENDS LIFE.  
Hot Springs, S. D., March 3.—Harvey Silkworth, inmate of the Fall River county poor farm, shot and killed Mrs. Mary L. Judson, matron of the home, and killed himself, according to a verdict given by a coroner's jury after investigation of the two deaths.

## A Great Discovery

Swollen hands, ankles, feet are due to a dropsical condition, often caused by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like formations.

As a remedy for those easily recognized symptoms of inflammation caused by uric acid—as scalding urine, backache and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, lumbago, sciatica, gout, it is simply wonderful how quickly Anuric acts; the pains and stiffness rapidly disappear.

The very best possible way to take care of yourself is to take a glass of hot water before meals and Anuric, the discovery of Dr. Pierce of Buffalo, N. Y. Step into any drug store and ask for a 50c. package of Anuric, which is many times more potent than lithia and eliminates uric acid as hot water melts sugar. A short trial will convince you.

MOTHERS OF MINNESOTA  
HERE IS ADVICE FOR YOU.

Minneapolis, Minn.—"I have found great relief in Dr. Pierce's Favorite Prescription. During my early married life it was recommended to me during expectancy. I was run-down and in a nervous state, and the 'Prescription' built me up and cured me of this nervous condition. Since that time I have always taken the 'Favorite Prescription' and it has always been such a help to me in keeping me well and strong, and my babies were all fine and healthy. I consider 'Favorite Prescription' one of the best things a woman can take."—Mrs. DAVID DUBRY, 2225 E. Lake Street.

OLD-TIME COLD CURE—  
DRINK HOT TEA!

Get a small package of Hamburg Broom Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold. Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM  
STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment.
